

CoralTM

INOX contemporary doors

Coral Windows & Conservatories
have a range of stunning contemporary
doors to help make your home look its
best and stay secure.

EUROPEAN STYLE

We offer great-looking, energy-efficient doors which are expertly designed and installed and come with full guarantees. There are no deposits or stage payments to be made – you only pay on completion of the installation. This applies no matter how small or large the job, and we offer this service to give you peace of mind when choosing a Coral door.

Coral installs its doors to a British Standard and has a BSI kitemark licence to do so. We are also a FENSA (Fenestration Self-Assessment Scheme) registered company, giving you peace of mind that we take our work seriously and adhere to strict regulations at all times. Established for more than 25 years, Coral Windows & Conservatories has become a customer favourite and market-leading firm within Yorkshire.

From our humble beginnings we have focused on putting our customers first and providing excellent service. We do not employ 'hard sell' tactics and will never talk you into products that are not suitable. Our Coral Mill head office in Bradford is also home to our manufacturing plant and showroom, which is one of the largest in the region. We also have showroom sites across the county and strongly encourage our customers to visit us and see how new doors can transform their home.

No matter how large or small your order is, we do not ask for a deposit or staged payment – you only pay on completion of your order. We believe this gives all our customers peace of mind about the quality of our product and installation.

Our range of Inox Glazed doors combine the high-performance of GRP composite materials with beautiful aesthetics to give a truly contemporary look to any entranceway. Manufactured using a 44mm Composite door slab, our doors are guaranteed not to warp,

twist or shrink and come with a 10 year warranty. Our Inox Doors use finely grained 316 grade stainless steel glazing frames which as well as adding a distinctive European flair are guaranteed to keep their high shine and stunning looks for years to come.

PRAGUE

Once the door is closed from the outside, a key is needed to enter. Because of the contemporary design of these doors, we recommend a wall mounted external post-box should be used.

NICE

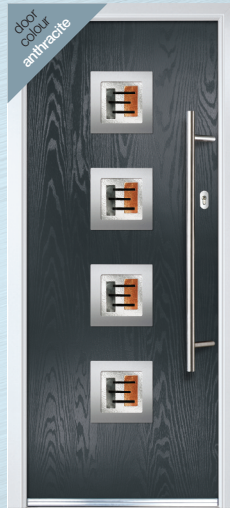

NICE DOOR SHOWN IN BLACK WITH BLACK TAHOE GLASS OPTION

The Nice door offers a Mediterranean style with four decorative lites that allow the light to stream in without compromising on your privacy.
