

Why Coral?

“At Coral we have the right glazing products for your home, helping it look its best and stay warm, quiet and secure.”

Established for more than
28 years, we offer great
looking, energy efficient and
property enhancing windows,
doors and conservatories, all
expertly designed and installed.

From our humble beginnings we have
focused on putting our customers first
and providing excellent service.

All of our installations come with full
guarantees, we are strictly regulated by
British standards within this industry and
we are proud to offer the added benefit
of no deposit or stage payments - **no
matter how big or small the job is.**

Our extensive
experience means
we really do know
what we're doing -
our customer service,
installations and
attention to detail
is **second to none.**

**There are no
upfront payments.
Ever.** You only pay
on completion of
the installation
because we're only
happy when we know
that you are too.

Everything is
manufactured in
our own factory in
the UK to the highest
possible standards.
Our quality control
checks and rigorous
testing ensure you
only get the best.

Designed for function
as well as style - our
installations have an
A+ Energy Rating,
meaning not only do
they look great - but
they save you money
too. Ask for details on
frame specification.

Spread out the cost and make life more comfortable...

Turning your house into a home
couldn't be easier with finance
arranged by Coral Windows.

Coral Finance

Every year we offer hundreds of people a convenient and easy way to afford new windows by spreading the cost.

So with our easy to arrange finance, we're here to lend a helping hand whether you're improving to sell or just fancy a change. Just ask one of our consultants for the options available.

No deposits

Payment on completion only

Competitive bank-busting rates

Quality, and style.

At Coral, we firmly believe that expecting the highest quality doesn't mean compromising on style.

Our reputation for quality and our ability to make our customers dreams turn into reality is second to none. We fully understand that windows and doors are not an everyday purchase therefore we take time and effort to make sure we create what the customer wants. Our wide range of styles and colours makes it possible for us to help you achieve your dream.

We pride ourselves
on our ability to
offer you more....

All the materials used in our casement windows are of the highest quality and are built to last.

Stronger

All the materials used in our casement windows are of the highest quality and are built to last. They withstand even the harshest UK weather conditions, keeping the elements out.

Guaranteed Quality

With our BSI licence being checked every six months you can be assured that our workmanship is guaranteed up to a British Standard.

Choice

We offer all of our windows in a wide range of colours and wood-grain effects. We also offer multiple glazing and design options, ensuring your new windows look great enhancing your home.

Simplicity. Security. Style. Standard.

Over our 28 years in the home improvement market we have been able to develop top class windows, that provide the best in quality and technical performance.

Warmer

Our casement windows are top-quality double-glazed and are manufactured to A-rated standards. Our windows help prevent heat loss, ensuring you use less energy to keep your home warm.

Security

Our windows feature top quality locks, internal beading and a key-locking handle for the ultimate security to keep you at ease.

Quiet

Double-glazing keeps noise out, ensuring you can enjoy peace and quiet in your home, no matter what is going on in the world outside.

Low Maintenance

Our uPVC windows are easy to clean and will stand the test of time so you do not have to worry about labour-intensive maintenance.

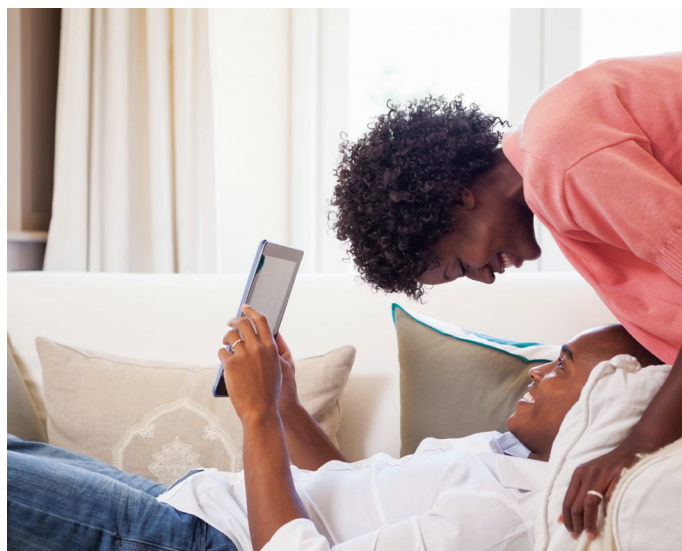

Want to find out more? Call freephone on **0800 66 99 55**. We're open 7 days a week.

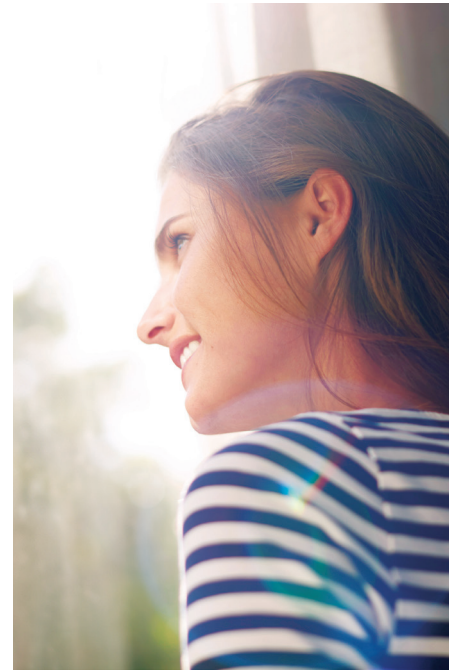

“ It was a pleasure to be served by these people. They know the importance of customer satisfaction.”

Mr & Mrs Tomlinson -
Sowerby Bridge

Casement Windows

All the materials used in our casement windows are of the highest quality and are built to last.

Coral uPVC casement windows are the ultimate combination of classic design, strong materials and high quality manufacturing. These windows suit almost any home and are practical, reliable and secure. Available in a variety of finishes, our casement windows are the finishing touch to your home.

“

We are extremely pleased with the finished result and are sure the value of our property has increased, compared to what it was with our old windows.

”

Mr & Mrs Ashford -
Barnoldswick

Georgian Windows

Georgian windows are an authentic replacement option which are made to measure to the highest specifications, ensuring they last for many years with the minimum of maintenance and cleaning.

Coral Georgian windows feature energy efficient double glazing, as well as the very best security features. They are safe, keep noise out and the heat in, and are virtually maintenance free.

You can choose between Georgian bar between the panes for easy cleaning, or Authentic bar. Please ask your consultant for details.

Triple Glazing

Here at Coral we have always been at the forefront in providing the best possible products and services to our customers, so we are more than proud to announce the launch of our new CL3 range of Triple Glazed Windows.

Triple Glazing is un-rivalled in terms of energy and sound performance when compared to standard glazing options, approximately 60% more thermally efficient than standard C-Rated Double Glazed windows and 40% more than standard A-rated Double Glazing.

Made from the same high quality uPVC profile as our Double Glazed windows, so depending on your needs you can select windows with different performances from the Coral CLIII range to suit your needs.

The sealed units are filled with two chambers of inert Argon Gas.

Toughened glass

Ultimate energy saving with up to £635 per year.

High security multi point locking built in as standard.

Energy rated Pilkington Triple Glazed glass.

15 Year comprehensive guarantee.

Triple Glazing adds an extra layer plus toughened glass, helping you to feel safer in your own home. The window is harder to break and therefore brings extra security.

Triple Glazing will bring extra warmth to your home by retaining natural heat generated by the sun along with any heat your home produces.

Triple Glazing is great for those who love the quiet. It does a brilliant job of reducing unwanted external noise. Size restrictions on CLIII options, ask consultant for details.

Sash Windows

Coral uPVC sash windows are the perfect modern version of this traditional design.

Our sash windows eliminate the common problems associated with wooden sash windows, such as sticking, rattling, and difficulty opening and closing. Coral uPVC sash windows give a smooth and easy opening and closing action, plus they tilt in for easy cleaning.

They have high security locks as standard.

As with all our windows, uPVC sash designs feature the very best security measures, including locks and internal beading, and are manufactured to the highest standards to ensure they keep noise out and warmth in.

Sash windows can enhance the historic charm of your home without bringing back any of the issues usually associated with this style, and an array of colours are here for you to choose from.

Tilt and Turn Windows

Tilt and Turn windows are modern and practical, allowing you to open up your home and let the fresh air in. They are also great if your home enjoys spectacular views as they can showcase the outside world in a modern, innovative way.

Our multi-functional tilt and turn uPVC windows can be opened and tilted in all sorts of ways, ensuring you can improve the ventilation in your home, enjoy stunning views and keep your home secure.

Depending on how the handle is turned, the windows can be opened at the top or the side, and restrictions on the opening can be used for peace of mind. This also means the windows are very easy to clean – no need to get the experts in.

Self cleaning glass was described as an “impossible dream.” Not for Coral.

Following an intensive research and development programme our glass on the CL3 features self cleaning properties accompanied by triple glazing to allow for a low maintenance yet efficient window.

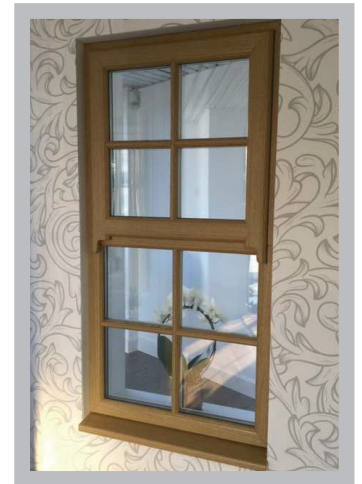

For use in a variety of residential applications, its self-cleaning properties make it ideal for use in hard-to-reach places that are difficult to clean.

Also all CLIII windows come with coloured, textured frames as standard. Choose CLIII windows that you can feel and see the difference.

Coral Sash Horns

The Coral Sash Horn Window provides the traditional stylish look of yester-year with 21st Century materials and performance. Our sash horn windows preserve the classic look of wooden box-sash windows, maintaining the authenticity of any property.

A world of colour...

Subject to availability. Ask for details.

Part of the CLIII range, 16 foil colours are available for our full suite of windows and doors with matching trims, cills and ancillaries. Ask your consultant for details and a colour swatch sample.

- Includes the beautiful foils: Classic Cream, Chartwell Green, Irish Oak, Anthracite Grey, and the unique Nut Tree.
- Extremely durable
- 15 year manufacturer's guarantee

Bifold Doors

Bifolding doors in a range of colours and textures, bringing the outside in.

Bifolding doors -
a contemporary
touch to suit
any home.

French Doors

French doors are a great way to let light into your home and give a wider opening than standard doors for easier access to the garden. These doors traditionally led out to small balconies, but today they are used to add a continental feel to homes and allow people to get out to their garden or patio quickly and easily.

French doors are a practical option for anyone who likes to make the most of their outdoor space. They are particularly useful in between a conservatory and indoor rooms, or between a room and outdoor space. When people are coming and going keep one door open, but if you need to move furniture out then throw open both of the doors for wider access.

Our French doors are made to measure to your exact requirements, ensuring they look great. We use only the very latest technologies and manufacturing processes when making all our French doors, so you can rest assured that they are safe and secure and will keep noise out and warmth in. Toughened safety glass and top-end security locks come as standard in all our doors.

Patio Doors

To bring the outdoors in to your home a patio door is the ideal solution. Coral patio doors let light in thanks to large glass panels, and the easy sliding movement allows the door to glide open and let the air into your home.

Whatever the weather, patio doors allow you to enjoy your garden from the comfort of your home. And with the same high quality double glazing and safety features as our other doors, you can keep the noise, cold and intruders outside where they belong.

FENSA
Registered Company

Frequently Asked Questions

Has the company got a good trading record?

Coral™ has been continuously trading successfully for over 25 years.

Do I have to pay any money up-front?

Coral™ take no deposits or stage payments, the customer pays on completion.

How long will my windows be guaranteed for and what happens if the company goes out of business?

Coral™ guarantee the uPVC profile for 15 years and the sealed units for 10 Years. We also offer an insurance backed guarantee for peace of mind should anything unfortunate happen to the company.

Do I know anyone who has used the company before and would they recommend them?

Over 70% of our business comes from recommendations and existing customers, surely this speaks for itself.

Is the window fitted with security features, including internal beading?

At Coral™ all our windows are internally beaded as standard and we fit shoot bolts and hinge bolts to our sashes.

Can I change the style of my windows from side-openers to top-openers or fixed windows?

Coral™ is a Fensa Registered Company and installs to Fensa Guidelines which States that you cannot reduce the room's original ventilation, however if it achieves the 1/20th rule and has a fire exit within the room the style can be changed.

I live near a main road and can hear the traffic over the television. Is it possible to have a window that will reduce the noise?

Yes. We produce soundproof units in 10mm float or toughened glass and 6.4mm laminated K Glass which will help reduce the noise. Ask for details.

I would like maintenance free windows but would like them to not only look like wood, but also feel like wood.

Coral™ not only manufacture Rosewood/Oak frames, they also are one of the first to produce coloured frames with a defined grain effect. See our 'Colour Choice Range' for choice of colours.

You hear horror stories about installers/builders that leave your house in a state of destruction, and in some extreme cases, unsafe, how do I combat this?

Coral™ has achieved the prestigious BSI award for installations, an award that is stringently managed by British Standards and is difficult to achieve and maintain a feat that Coral™ have achieved now for a number of years. Coral™ Prides itself on the on-going training of its installers and ensures that each Installation is quality checked during and after each installation.

Having never purchased windows before, how do I decide which company to choose?

Coral™ have strived for many years to offer the customer a complete Professional Service. We have branches throughout the region where you will find one of our trained advisors who would be only too willing to give you any advice that you require and if you wish we could furnish you with a Free No Obligation Quotation.

Coral manufacture their frames in their own factory.
